

Church Accessibility Audit

Based on the Everybody Belongs, Serving Together: Inclusive Church Ministry with People with Disabilities Guide

Attitude

Item	Yes, No, In Process, Scheduled for Later Date	Comments
People with disabilities and their caregivers have been asked whether they feel welcome in worship, leadership, and church programs.		
Our church is intentional about engaging people with disabilities in all aspects of church life.		
People with disabilities serve on church committees or in other leadership roles.		
Our church offers inclusive programming (designed and implemented to include all children, youth, and adults, with or without disabilities).		
Our church has a committee and/or church disability advocate.		
Ushers, teachers, and youth leaders/mentors have been instructed regarding appropriate ways to greet and respond to the needs of people with disabilities.		
Worship and other church functions are “fragrance free,” and participants are urged to refrain from wearing perfume and aftershave. Unscented candles, soaps, detergents, cleaning supplies, air fresheners, and facial tissues are used exclusively.		
Transportation is offered for people with disabilities who cannot drive.		
Our church has adopted a Church Policy on Disabilities.		
Church leaders work with people with disabilities and caregivers so that needs are addressed, including pastoral care.

Communication

Item	Yes, No, In Process, Scheduled for Later Date	Comments
Our church has assistive listening devices (infrared, hearing loop, FM) available for people with hearing impairments.		
Sign-language interpretation is provided when it is requested in advance.		
Overall lighting is adequate for signing and speech reading, or for individuals with low vision.		
The sermon and spoken elements of worship are available in written form for people with impaired hearing.		
Screen projection has good color contrast with no background movement and about 15 words filling a screen.		
Descriptive captioning is used with visual projection.		
Our church has effective communication methods available (e.g., large print, Braille, etc.) for people with vision impairments. (Added)		
Our church has effective communication methods available (e.g., noise cancelling headphones) for people who are neurodivergent. (Added)

Facilities/Architecture

Item	Yes, No, In Process, Scheduled for Later Date	Comments
Entrances and hallways are free from barriers that can impede a wheelchair (door bases, grates, thick mats).		
Door handles are lever style on all inside doors.		
A ramp (with a slope no greater than a 1:12 rise) is available for access into the building.		
Doors to rooms, especially bathroom doors, are at least 36 inches (0.91 meters) in width.		
Proper handrails are installed in all toilet areas for assisting in transfer and standing. All rails are at hospital fixture height.		
All sink fixtures allow for knee access and have insulated pipes and lever-style handles.		
At least one toilet stall has a raised seat and space next to the toilet for side transfer, and has room to turn around a large, power wheelchair.		
An accessible, unisex bathroom is available.		
Coat racks can be accessed by all people.		
All levels of the building are accessible from the inside.		
People who use wheelchairs have choices in where to sit in the sanctuary (besides the front or back rows).		
The pulpit area is accessible.		
Church mailboxes are accessible (or you use another accessible form of communication with members).
